Cyler Connectivity Limited is a China based company, we are specialized in design and manufacturing of the Push-Pull connectors, and also provide turnkey solutions for cable assembly.

As a leading manufacturer of Push-Pull connectors in china, Cyler is committed to provide high quality products with low cost. There are several key differences between Tt our sales department and the other companies. We work closely with our partners to continuously improve our products, and continuously to improve supply chain management and logistics control by ensuring export departure of shipments as per schedule to meet customers' requirement.

To make high quality products, we have equipped with all necessary advanced equipments and devices in our CNC processing center and cable assembly lines, testing & aging rooms and packing facilities. Today, Cyler provides our clients with complete connection solutions which includes connectors, probe parts and cable assembly services.

Cyler Connectivity Limited is the best one to provide the connectors that best suits your application, the best partner for your business in China. Our expert team will find the right solution for the development of your project and business.

Thank you for considering Cyler Connectivity as your connector supplier. We take pride in offering you the best possible prices on connector products, short lead time, and the highest standards in customer service. We are committed to do all that is necessary in order to keep you a satisfied and returning customer! As a valued customer, you can confidently place your order with the knowledge that it will be delivered on time and complete.

All our products are permanently enhanced for our customers. Therefore this catalog is subject to change and error. Updated information on CYLER products, developments, research projects and trade fairs can also be found on the website: www.cylertech.com

Indication:

Unless prior agreement, the general conditions of sale and delivery applying will be those of the concerned Cyler Connectivity Limited.

For more than 10 years, Cyler has designed, manufactured, and distributed high performance push-pull connector and cable assembly solutions. Known for their quality, ruggedness and cost effective, our products prove to be reliable in the most demanding environments. For a wide range of applications and environments the family of Cyler's push-pull connectors are the ideal match for the third party connector. The line up is optimized to provide the best performance fit and value for money. Cyler provides complete, high quality turnkey solutions – connectors, cable assemblies and overmolding – all from one supplier.

For several reasons, only the most popular B.S.K.F.P connector series and the appropriate connectors are mentioned in this catalogue. Connectors series such as C series etc. belong to the extended product range.

The selection within these series however is rather limited. For more information, please contact our sales department.

Technical Characteristics

Most metallic components in general are manufactured in brass, and plastic housing are manufactured in PSU/PC. However, bronze or beryllium copper are used where good elasticity is required. Depending upon the application, these parts have electrolytic nickel or nickel-gold plating. These parts can also be manufactured in stainless steel.

	B series	S series	K series	F series	P series

Cyler offers a Push-Pull connector product line for almost any application, from medical equipment to test and measurement instrumentation. We focus on delivering on time, on cost and on experience connectivity solutions that stand up to the toughest conditions, so you know you can rely on our service and on uncompromising quality in all environments.

Where and Why Push-Pull Connector

- Industrial and Automation
- Medical electronics
- Telecommunication
- Test and Measurement
- Quality aesthetics for more value added on the equipment
- Extremely fast and easy to play
- Space saving
- A thousand mating/unmating cycles

Key features & benefits

- Security of the push-pull self-latching system
- Easy blind mating in difficult-to-reach places
- High contact density in a small space
- Multicontact types 1 to 40 positions
- Keying system for connector alignment
- Compatible with the third party connectors
- Cost-effective solutions

Push-Pull Locking System

The locking of the plug into the receptacle is achieved by a simple axial push on the outer shell.

The locking of the plug into the receptacle is achieved by a simple axial push on the outer shell.

The locking of the plug into the receptacle is achieved by a simple axial push on the outer shell.

Model Number Legend (Plug)

Use this model number legend to identify products from their model number. When ordering, use a model number from the table in Ordering Information.

B102-0B07-CM00-052S

□ □ □ □ - □ □ □ □ - □ □ □ □ - □ □ □ □

Material/Surface - Housing

C = chromed plated
k = black chromed

Series

B K S F P

Material - Insulator

O = PPS
E = PEEK

Gender of Contact

M = male contact
F = female contact

Back Nut Style

O = standard back nut
S = back nut for fixing a bend relief

Examples:

B102-0B07-CM00-052S

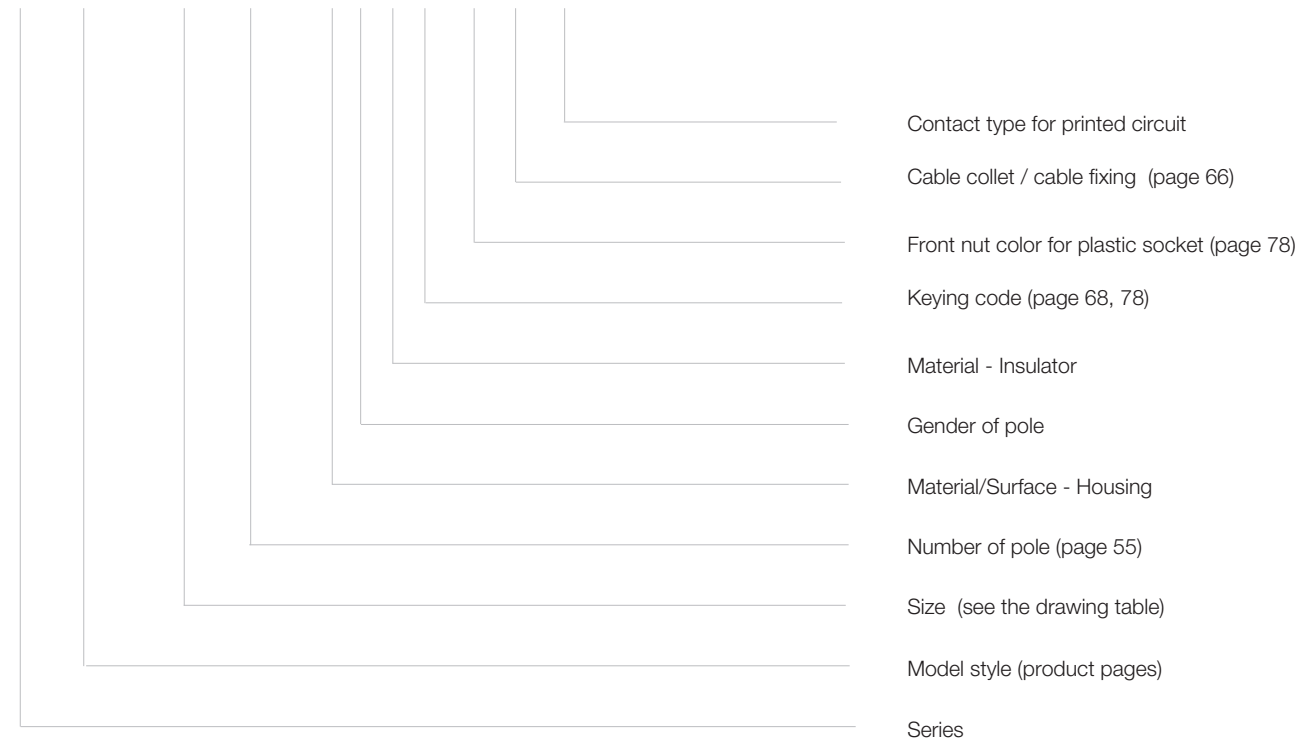

Straight plug with 1 key (alpha=0) and rear nut for fitting a bend relief, 0B series, multicontact type with 7 contacts, outer shell in chrome-plated brass, PPS insulator, male solder contacts, cable collet for 5.0 mm diameter cable.

Model Number Legend (Socket)

Use this model number legend to identify products from their model number. When ordering, use a model number from the table in Ordering Information.

B401-0B07-CF00-0000

□ □ □ □ - □ □ □ □ - □ □ □ □ - □ □ □ □

P SERIES CONNECTORS

Model - P101 | p series

Straight plug with standard back nut

Note: all dimensions are in millimeters

Reference		Dimensions (mm)					Availability	
Model	Size	mm	mm	mm	mm	mm		
P101	1P						●	

Materials

Polycarbonate (PC) or Polyarylsulfones (PSU) plastic shell and collet nut, housing available on grey, black and white color.

Temperature range

-40°C / +150°C

Multicontact types 2 to 14 contacts

IP Index: IP50 IP64

Ordering Information / Model number example

P Series Multicontacts Layouts & Characteristics

	Male solder contact	Female solder contact	Reference	Number of contact	ø A (mm)	Solder wire max. (AWG)	R (max.)	Test voltage (V rms) Contact-contact	Current rating (A)	Contact type availability		
										Solder	Printed circuit (straight)	Printed circuit (elbow)
1P			02	2	1.3	20	5	1200	10.0	•	•	•
			03	3	1.3	20	5	1200	10.0	•	•	•
			04	4	0.9	24	6	1200	8.0	•	•	•
			05	5	0.9	24	6	1050	7.0	•	•	•
			06	6	0.7	26	7.5	1050	6.0	•	•	•
			07	7	0.7	26	7.5	1050	5.0	•	•	•
			08	8	0.7	26	7.5	1050	5.0	•	•	•
			09	9	0.5	28	10	850	3.0	•	•	•
			10	10	0.5	28	10	850	3.0	•	•	•
			14	14	0.5	28	10	600	2.0	•	•	•

Stranding values are in brackets. For a given AWG, the diameter of some stranded conductor designs could exceptionally be larger than the hole diameter of the barrel. Testing may be required.
Nominal Voltage acc. SAE AS 13441:1998 method 3001.1 meet the MIL-STD 1344, method 3001, Test acc. IEC 60512 test 4a.
